Curriculum Development Workshop

Designing inquiry-based activities for your developmental biology class or laboratory

- Do you want to learn about Vision and Change and best practices in undergraduate science education?
- Are you interested in developing more active learning in your Developmental Biology course?
- Do you want to extend your research into the undergraduate classroom?
- Are you trying to make your course more interdisciplinary?

Faculty, post-docs, and graduate students attending the NWDB meeting are invited to attend one or both sessions of this workshop funded by the Society for Developmental Biology.

**Thursday, March 19, 1:30 pm:** Information session about best practices in undergraduate science education promoted in Vision and Change (AAAS, 2009) and different models of incorporating inquiry-based curriculum into the undergraduate classroom or laboratory

**Thursday, March 19, 2:30 pm:** Hands-on workshop for those interested in developing inquiry-based curriculum or for those wanting to share their curriculum innovations with the NWDB community

Led by Erica Crespi and Robyn Reeve, Washington State University, and Laura Dyer, University of Portland

*We hope to strengthen the network of developmental biology educators and educational resources in the Northwest!*

*If you are interested in participating in the hands-on workshop, or have any questions about the workshop, please contact Erica (erica.crespi@wsu.edu) or Laura (dyer@up.edu).*
